

SCHWEGO[®] plus 8441

Deep cleaning agent and rejuvenator for blankets and rollers

Function: In the course of time dirt will accumulate in the pores of the rollers and will lead to trouble in the printing process. A mixture of dirt will form by the various influences; this mixture cannot or can only be dissolved with difficulties with the commercial, regularly used mineral oil cleaning agents.

SCHWEGO[®] plus 8441 will dissolve these tenacious dirt accumulations and will lead in the second step to a rejuvenation of the rubber materials. Rollers and blankets become more subtle and the treated surface will improve the ink and fountain water transport.

Properties:

- Dissolves complex, mixed dirt accumulations and will lead to pore-deep cleaning
- Prolongs the service life of the blankets and rollers
- Rejuvenates the blanket surface
- Rollers and blankets will regain their elasticity
- Improves the ink and water transport
- Free from chlorinated and aromatic hydrocarbons

Flash point: 32°C

Application: In order to treat the blanket or the rollers **SCHWEGO[®] plus 8441** is applied each time after the basic cleaning process.

Tip: In case of soiling especially by deposits of calcium, it is recommend to use **SCHWEGO[®] calci clean 8179** beforehand.

Subject to appropriate storage, the described properties of **SCHWEGO[®] plus 8441** remain stable for at least 24 months.

Packaging: 1 l bottle / 10 l canister / 200 l drum
